The Estate and Elder Law Center can help set up a Special Needs Trust. Attorneys help families who provide care for a child or loved one with special needs (such as mental or physical disabilities). Staff can help you set up a Special Needs Trust so that government benefit eligibility is preserved while at the same time providing assets that will meet the supplemental needs of the person with a disability. The Special Needs Trust must be designed to supplement, not replace, public benefits. A Special Needs Trust can be a stand-alone trust funded with separated assets like a life insurance policy or it can be a sub-trust in an existing living trust. Please call for more information.

Attorneys can also help with Medicaid planning, life care planning for seniors, estate planning, estate administration, probate, guardianship, and more.
