Riverside Gastroenterology Specialists provides comprehensive care in the prevention, diagnosis and treatment of the stomach, intestines, esophagus,

pancreas, gall bladder, liver and biliary tract. Offers endoscopy suite where specialists look inside the body using an endoscope (video instrument that enables them to view abnormalities in most areas of the digestive system, provide treatment and take samples for testing.

Conditions treated can include Crohn's disease, diverticulosis and diverticulitis, gallstones, reflux disease (GERD), latose intolerance, nutrition-related disorders such as celiac disease, pancreatitis and swallowing disorders.

Gastroenterology procedures can include colonoscopy, polypectomy, flexible sigmoidoscopy, upper endoscopic exams, esophageal dilation, esophageal and anal manometry and more.
