Fauquier Health Rehabilitation and Nursing Center provides short term rehabilitation. No matter what your rehabilitation needs, our goal is to return you to your highest functionality and mobility so that you can be active, independent and as pain free as possible.

Physical, occupational and speech therapy are offered. Each of these specialties provides specific treatments tailored to the needs of each patient. In addition to a full array of modern therapy equipment, our facility houses the only indoor rehabilitative pool in the area. This highly effective aqua therapy program draws patients from all over the Northern Virginia area. Our pool features easy-entry stairs and a hydraulic lift for wheelchair-bound patients.

Service Area(s)

Fauquier County
