The purpose of our service is to help people obtain Social Security disability benefits and all community, local, state and federal financial benefit programs. We work with those who have a serious mental and/or physical impairment and cannot work and earn an income.

We will manage the entire application process on your behalf including filling out all forms, obtaining all medical records, and communicating directly with the Social Security Administration. If you have already been denied we will handle your appeal and if required, represent you at a Hearing. Our goal is to get you the benefits you deserve as quickly as possible. Since this is a Federal application process, we are able to help you regardless of where you live in the state. There is no fee charged unless we are successful in getting you approved for benefits.

Service Area(s)

Albemarle County
