James City County Office of Housing offers loans and grants for indoor plumbing and housing rehabilitation. Federal, state, and local funds provide loans and grants to qualified low and moderate-income homeowners to repair and improve their homes. Installation of indoor plumbing, connection to public water and sewer where available, and repair of failed well and septic systems are emphasized.

The Virginia Department of Housing and Community Development (DHCD) contracts with local governments, nonprofit housing providers, and housing authorities to administer the IRP program.

For more information, contact DHCD at 804-371-706.
